Present:-

The Honourable Mr. Justice Chandra Reddy.

Appeal No. 318 of 1950.

1. The Revenue Divisional Officer and land Acquisition Officer Mangalore 2. The Collector of South Kanara -- Appellants (Petr. and 4th Respt.)

1. Nemi Raja Kannanthaya Ballal 2. Rathi Devi Amma 3. H.V. Fernandes -- Respondents (Respts. 1 to 3)

Appeal against the decree of the Court of the Subordinate Juage of South Kanara dated 18-11-1949 and passed in C.P. No. 9 of 1949.

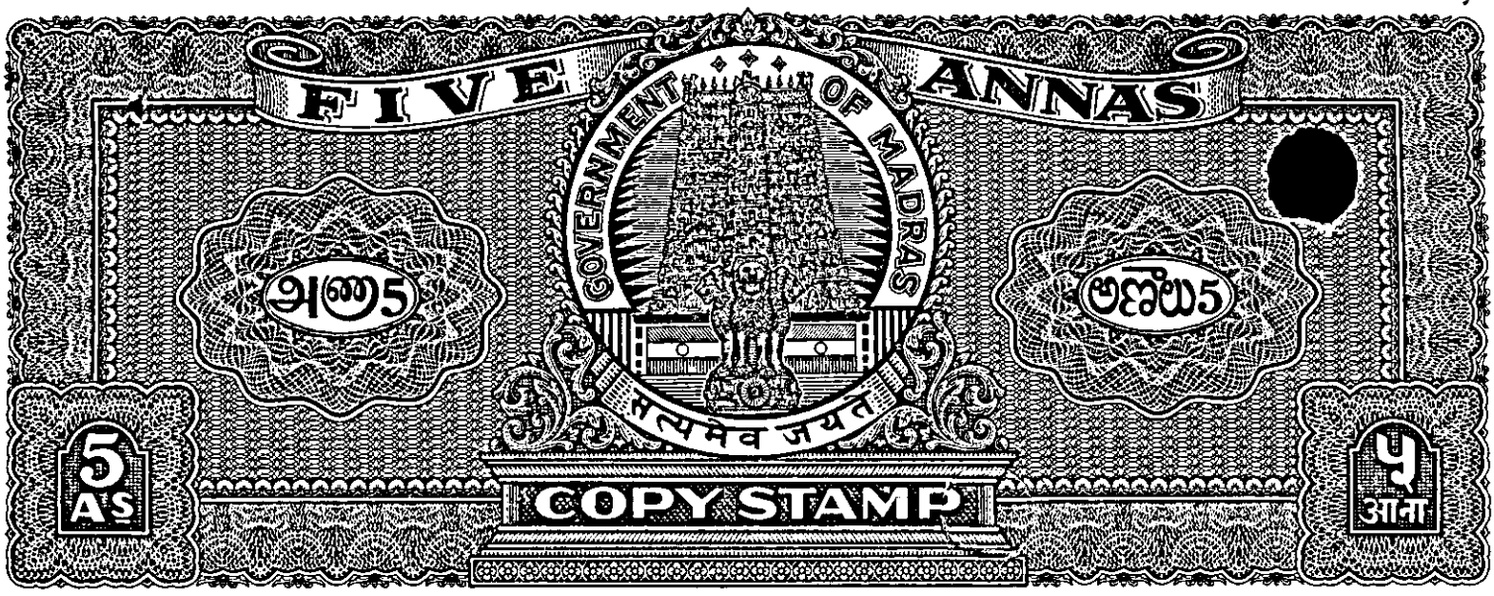
This Appeal coming on for hearing the court delivered the following JUDGMENT:- Appeal No. 318 of 1950.

This is an appeal by the Government of Madras aga inst the judgment of the Subordinate Judge of South Kanara enhancing the compensation awarded by the Land Acquisition Officer. On the 20th of January 1948, a notification was issued under S. 4 of the Land Acquisition A ct (hereinafter to be called the Act) for acquiring a small

1-tsri

of land measured 1 cent adjoining the ferry at a village called Paaukodi on the way to Kuloor. The 1st respondent is the husband of the 2nd respt- to whom he has granted on mulgeni tenure the suit and other lands. He has no objection to the compensation being paid to the 2nd respondent. The 3rd respondent is a lessee from the 2nd respondent. The 2nd respondent claimed a sum of Rs. 3000 by way of market value and solatium of 15 per cent thereon. But the LandAcquisition Officer awarded only compensation of Rs.28-12-0 including the solatium. At the request of the claimants, a reference was made under s. 18 of the Act to the subordinate Judge of South Kanara. The subordinate Judge fixed the compensation at Rs. 1000 in addition to the solatium of 15 per cent. It is that judgment that is under appeal now.

In support of the appeal, it is urged by Mr. Srinivasan for the Government Pleader that the Subordinate Judge has fixed the compensation arbitrarily and without any reference

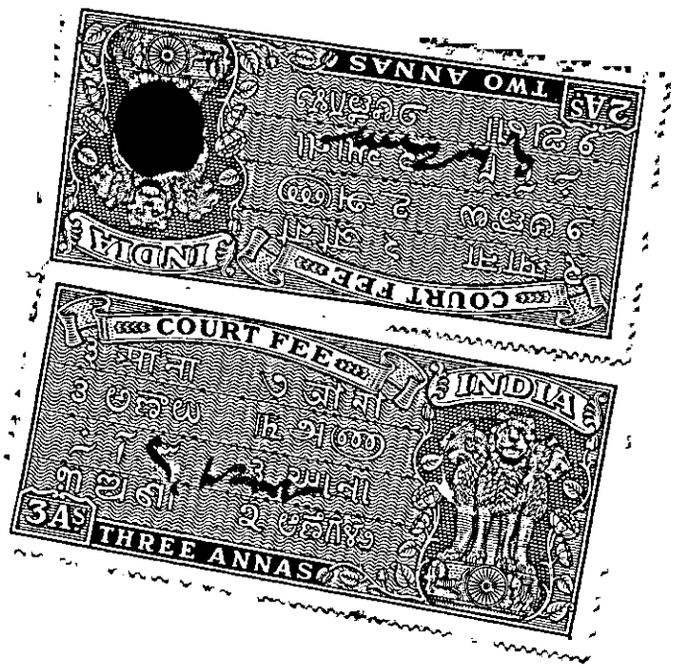


to the material on record. His contention is that the compensation fixed by the Land Acquisition Officer is a fair one and the claimants are not entitled to anything more than that. It is argued by the learned counsel that the compensation paid by the Land Acquisition Officer works out at Rs. 2500 per acre and this is far in excess of the compensation paid to the same claimants under Ex. A-2 i.e. at Rs. 480 per acre.

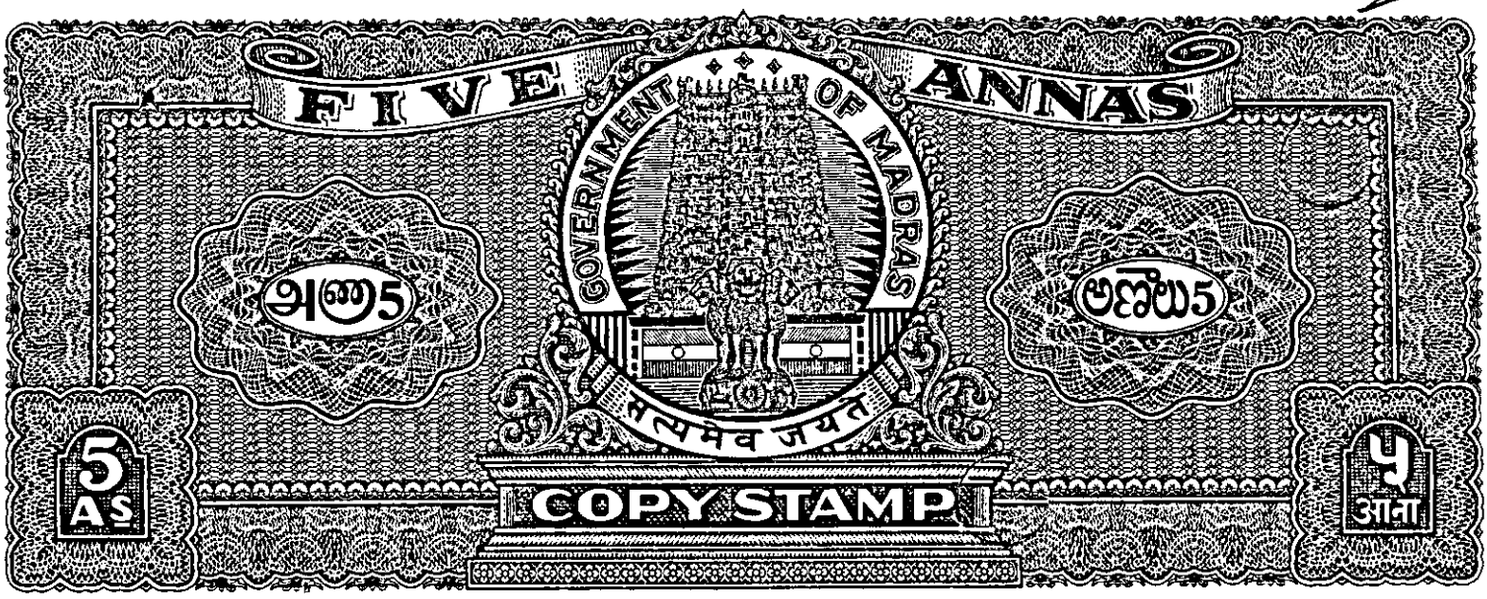
Ex. A-2 relates to an extent of 2 acres 10 cents included in S. Nos. 35/2-B and 35/5-B, 1 acre 31 cents being dry land and the other portion being garden land. But I do not think that this document can furnish real data for determining the compensation to be paid for the suit site. That was on the slope of a hill and about two furlongs away from the site in question.

The documents relied on for the respondent are Exs. B-1, B-2 and B-3. Ex. B-1 is a lease deed in favour of the

3-tsri



of the 3rd respondent executed on 27-5-47 for a period of ten months, the rent stipulated being Rs. 10/- a month. If this document should form the basis of the market value of the site, it cannot be said that the compensation awarded by the Subordinate Judge is excessive. But Ex. B-1 cannot form any basis for determining the value of the site. There is no renewal clause in that document. This property does not seem to have been leased out to anyone at any time earlier than Ex. B-1 nor is it proved to have ~~fetched~~ fetched any ibcome. It is true that R.W. 1 the son of respondents 1 and 2 stated that there was a building in that place formarly, which was leased out on a rental of Rs. 8 or Rs 9/- but that building was washed away and no attempts were made to put up another building on that site. But the lower court was not prepared to believe him and I think rightly as the lease which are said to be with him. were not produced. The Suhordinate Judge was not



I inclined to take the rent under Ex. B-1 as the basis of the value as in his opinion the income was only a stray or casual one.

Another document called in aid by the respondents is Ex. B-2, a lease deed in respect of about 2 cents of land, adjoining the suit site. The rent fixed under the document is Rs. 144 per annum and the lease was to enure for a period of eight years. This document also cannot furnish any data for the reason that the rent fixed under the document is not only for the site but also for the building thereon. It is difficult to apportion the rent between the site and the building.

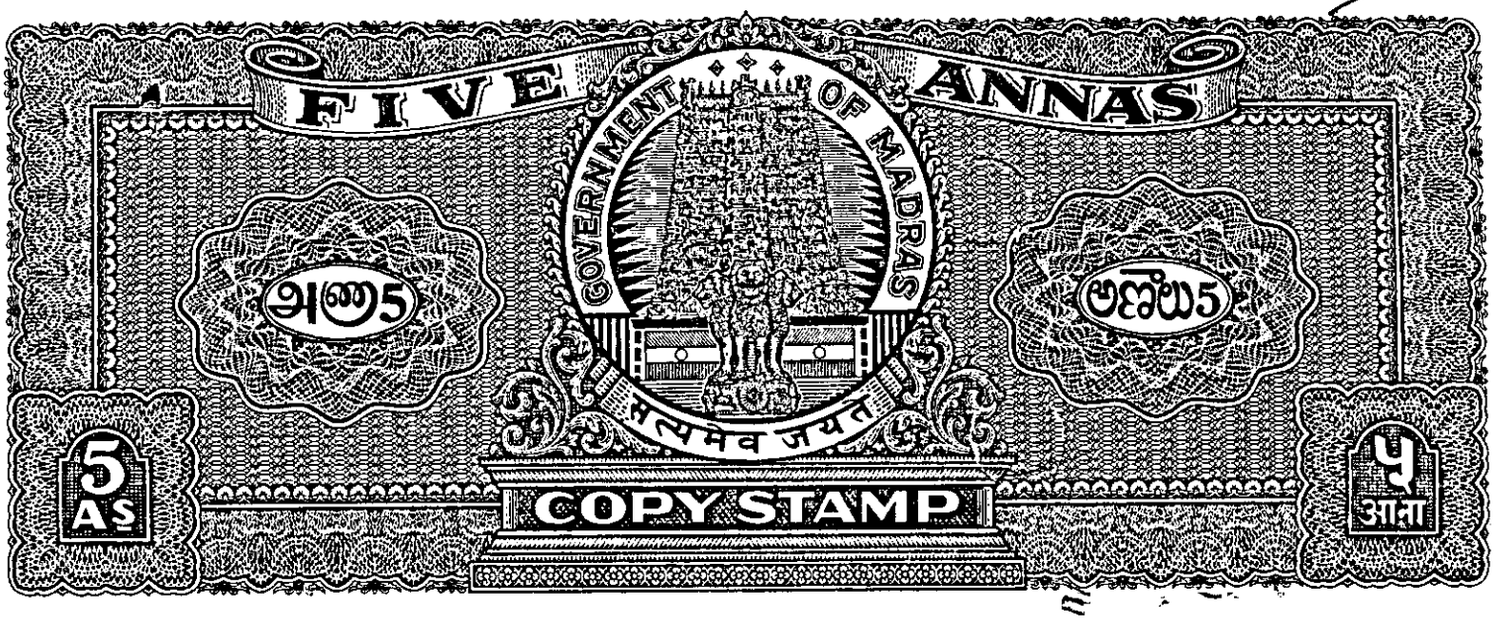
One other document on which reliance is placed for the claimants is Ex. B-3 dated 1-10-1947. This site also belongs to the claimants and is adjacent to the suit site, the purpose of the lease being to put up a bank near the ferry. Under Ex. B-3 the lessor gets a monthly rent of Rs. 2-8-0 for a site of about

5-tsri

about 1/10 of a cent, the lease period being 11 months.

Mr. Krishna Rao argues that, having regard at least to this document, the sum of Rs. 1000 awarded by the Subordinate Judge cannot be regarded in any way as excessive. The income derived by the claimants on the basis of Ex. B-3 at 20 years purchase will be far more than Rs. 1000/-. In my opinion, the rent fixed under Ex. B-3 cannot be a criterion for the reason that it is of a small extent and it is for the purpose of putting up a bunk. That apart the evidence of R.W. 1 shows that the suit site is subject to inundation. There is also the admission of R.W. 2 that "for the suit site Rs. 10,000 to Rs. 12,000 per acre is fair compensation". The learned subordinate Judge got over this admission by observing that this opinion of R.W. 2 cannot be considered to be the opinion of

6-tsri



an expert as he has no property in the neighbourhood and there are no sales whatsoever to test his opinion. Mr. Krishna Rao, besides adopting this reasoning, urges that whatever might be the force of that admission, if the extent to be sold is one acre or more, it could not apply to the suit site as it is only one cent of land. I do not consider that bridging the river at Kuloor would in any way diminish the importance of the locality. If as a result of the construction of the bridge over the river, the necessity for having a ferry shed disappears, there will be bus traffic over the bridge and that may enhance the utility of this place. Taking into consideration the potentiality of the site being used as building site and the rent which the neighbourhood sites are fetching and the rent which this site is likely to fetch and other advantages, I fix the market value of the site at Rs. 500 besides the solatium payable to the claimants.
